Request an ID Card:

If you have not already requested your ID card, use this link and follow the directions for submitting a photo: <https://emu.uoregon.edu/get-your-card>

If you submitted your photo prior to the deadline mentioned in your Welcome Letters, Christina or Danette will give you your ID card at your program orientation next.

Get Your Card

ID Card Services is now using a TDX service catalog! Please read this page carefully for more information about placing your request.

The first step to obtaining your initial UO ID card is to [submit your photo](#). Please do this before you visit ID Card Services to have your card printed. If you need a replacement card and your selfie photo is recent (less than 2 years old) you do not need to update your selfie, however you can if you would like to.

The ID Card Office is located on the ground floor of the EMU. When you come in to have your ID card printed, be sure to bring your UO ID number (95*) and government-issued photo identification (such as a valid driver license, state ID, military ID, or passport).

Please note: Your ID is valid for as long as you have an active relationship with the university. You do not need to renew your UO ID annually.

How to upload your photo:

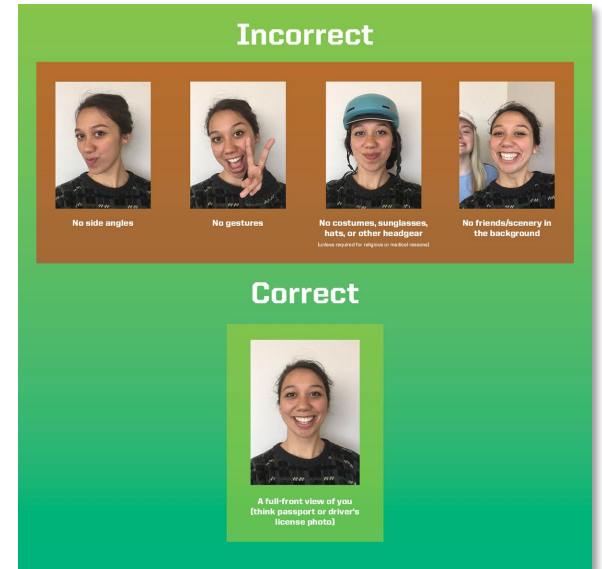

All photos for university IDs and badges must be submitted through our online photo submission form.

- Please review the photo requirements listed on the [Submit Your Photo](#) page.
- Be sure to submit both your ID selfie as well as an image of government-issued photo identification.

Students

Newly admitted students may obtain an initial UO ID card at no cost once they have been officially admitted.

Re-admitted students may obtain a new UO ID card at no cost upon verification of enrollment.

Check the specific photo requirements!

Registration for students:

UO Zonal Parking

B-Zones

There are four B Zones around campus, proximate to classrooms, labs, and offices. These zones are managed so that permit holders have a reasonable likelihood of finding parking at most times of the day. These lots may be full at peak times. B zone permits may also park in C zones, but may not park in other B Zones.
